

and requesting from MARAD a revised fair and reasonable guideline rate in accordance with the provisions of paragraph (b) of this section.

(d) Whenever a bid is submitted for a U.S.-flag vessel for the transportation of dry bulk preference cargo, the responsible department or agency shall only approve bids that apply to an individual vessel, and may not accept combined bids submitted for more than one vessel. If two or more vessels are offered, separate bids shall be submitted for each vessel. A bidder may submit a conditional lower bid for each vessel to be effective only if more than one vessel is contracted to carry the cargo.

(e) The requirements of this section shall apply only to those departments or agencies that directly pay or finance all or part of U.S.-flag ocean freight transportation costs for the carriage of dry bulk preference cargoes, in accordance with this part.

(f) The requirements of this section shall not apply to foreign aid consisting of direct cash transfer payments under specific agreements between departments or agencies and the recipient country with respect to the utilization of U.S.-flag vessels for transportation of commodities purchased with such funds.

§ 381.9 Available U.S.-flag service.

For purposes of shipping bulk agricultural commodities under programs administered by sponsoring Federal agencies from U.S. Great Lakes ports during the 1996-2000 Great Lakes shipping seasons, if direct all-U.S.-flag service, at fair and reasonable rates, is not available at U.S. Great Lakes ports, a joint service involving a foreign-flag vessel(s) carrying cargo no farther than a Canadian port(s) or other point(s) on the Gulf of St. Lawrence, with transshipment via a U.S.-flag privately-owned commercial vessel to the ultimate foreign destination, will be deemed to comply with the requirement of "available" commercial U.S.-flag service under the Cargo Preference Act of 1954. Shipper agencies considering bids resulting in the lowest landed cost of transportation based on U.S.-flag rates and service shall include within the comparison of U.S.-

flag rates and service, for shipments originating in U.S. Great Lakes ports, through rates (if offered) to a Canadian port or other point on the Gulf of St. Lawrence and a U.S.-flag leg for the remainder of the voyage. The "fair and reasonable" rate for this mixed service will be determined by considering the U.S.-flag component under the existing regulations at 46 CFR Part 382 or 383, as appropriate, and incorporating the cost for the foreign-flag component into the U.S.-flag "fair and reasonable" rate in the same way as the cost of foreign-flag vessels used to lighten U.S.-flag vessels in the recipient country's territorial waters. Alternatively, the supplier of the commodity may offer the Cargo FOB Canadian transshipment point, and MARAD will determine fair and reasonable rates accordingly.

AUTHORITY: 46 App. U.S.C. 1114, 1241(b); 49 CFR 1.66.

SOURCE: 63 FR 3828, Jan. 27, 1998, unless otherwise noted.

§ 382.1 Scope.

The regulations in this part prescribe the type of information that shall be submitted to the Maritime Administration (MARAD) by operators interested in carrying bulk and packaged preference cargoes, and the method for calculating fair and reasonable rates for the carriage of dry (including packaged) and liquid bulk preference cargoes on U.S.-flag commercial vessels, except vessels engaged in liner trades, which is defined as service provided on

an advertised schedule, giving relatively frequent sailings between specific U.S. ports or ranges and designated foreign ports or ranges.

§ 382.2 Data submission.

(a) *General.* The operators shall submit information, described in paragraphs (b) and (c) of this section, to the Director, Office of Costs and Rates, Maritime Administration, Washington, DC 20590. To the extent a vessel is time chartered, the operator shall also submit operating expenses for that vessel. All submissions shall be certified by the operators. A further review based on the independent CPA performing an engagement consistent with professional standards, i.e., an attestation engagement, is recommended. Submissions are subject to verification, at MARAD's discretion, by the Office of the Inspector General, Department of Transportation. MARAD's calculations of the fair and reasonable rates for U.S.-flag vessels shall be performed on the basis of cost data provided by the U.S.-flag vessel operator, as specified herein. If a vessel operator fails to submit the required cost data, MARAD will not construct the guideline rate for the affected vessel, which may result in such vessel not being approved by the sponsoring Federal agency.

(b) *Required vessel information.* The following information shall be submitted not later than April 30, 1998, for calendar year 1997 and shall be updated not later than April 30 for each subsequent calendar year. In instances where a vessel has not previously participated in the carriage of cargoes described in § 382.1, the information shall be submitted not later than the same date as the offer for carriage of such cargoes is submitted to the sponsoring Federal agency, and/or its program participant, and/or its agent and/or program's agent, or freight forwarder.

- (1) Vessel name and official number.
- (2) Vessel DWT (summer) in metric tons.
- (3) Date built, rebuilt and/or purchased.
- (4) Normal operating speed.
- (5) Daily fuel consumption at normal operating speed, in metric tons (U.S. gallons for tugs) and by type of fuel.

(6) Daily fuel consumption in port while pumping and standing, in metric tons (U.S. gallons for tugs) and by type of fuel.

(7) Total capitalized vessel costs (list and date capitalized improvements separately), and applicable interest rates for indebtedness (where capital leases are involved, the operator shall report the imputed capitalized cost and imputed interest rate).

(8) Operating cost information, to be submitted in the format stipulated in 46 CFR 232.1, on Form MA-172, Schedule 310. Operators are encouraged to provide operating cost information for similar vessels that the operator considers substitutable within a category, as defined in § 382.3(a)(1), in the aggregate on a single schedule. Information shall be applicable to the most recently completed calendar year.

(9) Number of vessel operating days pertaining to data reported in paragraph (b)(8) of this section for the year ending December 31. For purposes of this part, an operating day means any day on which a vessel or tug/barge unit is in a seaworthy condition, fully manned, and either in operation or standing ready to begin pending operations.

(c) *Required port and cargo handling information.* The port and cargo handling costs listed in this paragraph shall be provided semiannually for each cargo preference voyage terminated during the period. The report shall identify the vessel, cargo and tonnage, and round-trip voyage itinerary including dates of arrival and departure at port or ports of loading and discharge. The semiannual periods and the information to be submitted are as follows:

Period	Due date
April 1–September 30	January 1.
October 1–March 31	July 1.

(1) *Port expenses.* Total expenses or fees, by port, for pilots, tugs, line handlers, wharfage, port charges, fresh water, lighthouse dues, quarantine service, customs charges, shifting expenses, and any other appropriate port expense.
